25X1 1. [] James Gehrig, Senate Aeronautical and Space Sciences Committee staff, inquired whether NASA was a member of the U. S. Intelligence Board. I informed him that they were not. [] Boyd Crawford, House Foreign Affairs Committee staff, called indicating that Dr. Morgan, the Chairman, wished to know if the Agency could have a meeting with Mr. Seiden and his Latin American Subcommittee in a fashion similar to the discussions held today with the Zablocki Subcommittee at the Agency. The subject to be covered would be Castro export of revolution in Latin America generally. I advised Mr. Crawford I would check into this and let him know.

25X1 4. [] Mr. Zablocki's Subcommittee on Far East and the Pacific of House Foreign Affairs met at the Agency for a general discussion of the Sino-Soviet rift. Present from the Subcommittee were: Representatives Clement J. Zablocki, William S. Mailliard, Vernon W. Thomson, Harris B. McDowell, William T. Murphy, Ronald Brooks Cameron, and Lee H. Hamilton.
